SIGN **A**

FABRICATION: Individually illuminated letters (sizes as per drawing) fabricated of welded aluminum (.080 backs, .063 returns, 7" depth). Returns finished in black acrylic urethane enamel.

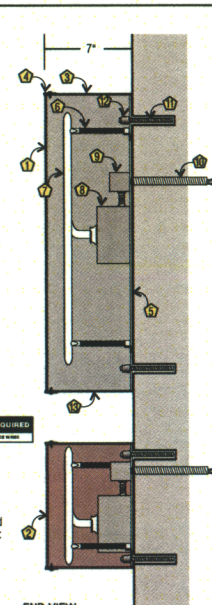

COLORS: Faces of black acrylic (day) and white (night) (Option: white face at all times).
"SELF STORAGE" to have 3M Trans Rust Brown 3630-63 vinyl applied to first surface.
Face trim finished to match returns

INSTALLATION: Int. Illumination by 13mm white neon tubing powered by 60mA PBKM transformers located in each letter. Disconnect switch on each letter. All primaries to exit in horiz. line. All wiring UL approved. Letters mounted flush to fascia via S.S. Threaded studs & rivnuts (see detail).

- 1 3/16" acrylic face (white or black).
- 2 3/16" acrylic face w/ 3M Trans Rust Brown vinyl applied to it.
- 3 .063 preformed aluminum letter returns.
- 4 1" Jewelle retainer painted to match returns.
- 5 .080 aluminum letter back.
- 6 Glass tube support.
- 7 13mm white neon tubing.
- 8 60mA PBKM transformer
- 9 J-Box
- 10 3 feet of Sealtight
- 11 1/4 x 5" S. S. stud (48" x 36" sets: 3/8" x 5"). Holes drilled into fascia & filled with Tuff-Bond adhesive. On 24" & up: use (2) part Hilti-C 20 adhesive.
- 12 Riv-Nuts
- 13 Min. (2) 1/4 dia. weep holes per letter.
